Research internship

Who

Prof. José Bento is looking for summer visiting PhD. students with a strong background in mathematics, in particular, linear algebra, optimization, probability/statistics, and real analysis. Non CS students (bio, math, physics, etc.) are welcome to apply.

What

Be paid to have fun developing and analyzing algorithms to solve problems in AI and learn a lot in the process. Students can design their own project.
See past projects at www.jbento.info

When

3 to 4 months, Spring and/or Summer 2019
(start/end date is negotiable)

Where

Boston College, Boston

How

Send CV to visiting@jbento.info
